

Dear Hiring Manager,

I am excited to apply for your organisation's Analyst position. As a recent Operations, Project and Supply Chain Management graduate and a highly motivated individual, I believe I possess the skills and knowledge required to excel in this role.

During my academic career, I developed a deep understanding of mathematical modelling, ESG investing, industry 4.0, simulation, lean practices, investment analysis, international logistics, and project management. I also gained hands-on experience through various work and internships, where I supported managers in analyzing market and investment opportunities, tracking portfolio performance, and developing asset allocation strategies.

My strong analytical and quantitative skills and my ability to work collaboratively with team members make me a strong candidate for this role. I am proficient in Microsoft Excel, SQL, PowerBI, Power Automate, R and other data visualization and programming software and possess a keen eye for detail, ensuring accurate reporting and analysis.

I am eager to apply my skills and contribute to the success of your organization. Thank you for considering my application.

Sincerely,

Harrison Ezea.
